Why do Drama?

Drama provides opportunities for students to develop a range of skills and the opportunity to concentrate on areas of personal interest. It is designed both for students who have completed the School Certificate Drama course and for those who are studying Drama for the first time.

Drama is an art form that explores the world through enactment. It is a collaborative art form that involves the creative interaction of individuals using a range of artistic skills. It is an important means of understanding, constructing, appreciating and communicating social and cultural values.

Drama is an essential tool in interpreting, valuing and transmitting the past and our societies traditions and is an effective mirror in which to reflect, explore, celebrate and challenge our society now and into the future.
