

2024 COURSES WITH MAJOR PROJECTS & MANDATORY EXCURSIONS

Course Costs

Coffs Harbour Senior College no longer charges Course Fees for consumables for the day to day running of the course. However, some courses do have additional costs that students will be expected to pay if they choose them. These costs include excursions and the provision of materials for Major Projects.

The following courses have Major Projects and Excursions that may involve a cost to students. There is an expectation that students attend mandatory excursions as these cover course content that cannot be completed in class. The costs involved in major projects are determined by the nature of the project the student chooses to complete.
